

Modernize the Way You Manage Your Printers & Copiers

Blinking lights, paper jams, and wasted supplies are a thing of the past.

Whether you're a small startup, or a large-scale corporation, we can help you optimize your printing and copying needs and bring your workflows into the 21st century.

Our services include:

- Document Imaging Solutions
- Document Management
- Printer Security Solutions
- Wide Format
- Production Print
- Certified "Eco-Friendly" Refurbished Office Equipment
- Award Winning Service Program

With Office1, you can be confident that our team of office technology experts will:

- **Align your print needs with your print fleet** to reduce waste and optimize spend
- **Ensure your compliance** with regulatory standards and infrastructure security
- **Integrate your printing process** to continually innovate with your office's IT ecosystem
- **Stop problems before they start** with proactive management and remote monitoring

 **Our all-US based team of professionals is ready to serve you!**

To make informed recommendations, **we take a consultative approach** to assess your business from an operations and technology perspective via our 5-step method:

- 1 Discover:**
We start by immersing ourselves in your business
- 2 Analyze:**
We look at the data and identify areas of strength and opportunity
- 3 Plan:**
We develop a strategy that fits your business needs
- 4 Deliver:**
We implement the customized solution
- 5 Manage:**
We stay involved and continue to actively monitor your business's success
